

## IFC FLASHCARDS

In order to develop a proficient understanding of the *International Fire Code*® (IFC®), it is important that code users be as familiar with the format and content of the code as possible. There is no substitute for using the code book itself in studying the technical provisions. However, these FlashCards can be an important tool in gaining a working knowledge of the code or in preparation for an exam. FlashCards are powerful learning tools that can provide the user with an easy-to-use approach to learning.

## HOW TO USE FLASHCARDS

The use of FlashCards is subject to the preferences of the user. The following method is an example of how to effectively use the FlashCards:

Create three categories for the cards. During the self-review, put each card into the appropriate category based on the following criteria. If you know the answer without hesitation, put the card into the “know” pile. If you can remember with a little hesitation, put the card into the “ok” pile. If you cannot remember the answer, put the card into the “needs work” pile. Recall time is an indication of how well you know the material. The better you know something, the faster you can answer a question about it. One of the keys memorization is to review the material as many times as possible. Commit to enough study time until you have all of the cards in the “know” pile.

## OTHER STUDY RESOURCES

Another valuable learning resource is the *International Fire Code*® *Study Companion* available from ICC. Nineteen study sessions address selected topics from the IFC and include code text, a commentary on the provisions, and relevant illustrations. Comprehensive quizzes are provided at the end of each session, along with the corresponding answers and code references. A total of 665 questions/answers are provided.

For a complete list of Study Companions, visit <http://shop.iccsafe.org/codes/2018-international-codes-and-references/2018-study-companions.html>

## EXAMS THAT REFERENCE THE IFC

ICC examinations referencing the *International Fire Code*® include the following in addition to several Fire Inspector, Fire Protection Systems and other miscellaneous exams.

BC Building Codes and Standards Module  
CS Code Specialist Module  
FC Fire Codes and Standards Module  
MG Legal Module  
MM Management Module

Visit [www.iccsafe.org/certification](http://www.iccsafe.org/certification) for more information on ICC exams. The exam catalog contains content outlines, test policies and more important exam information.

There shall be two types of fire permits:

1. \_\_\_\_\_ permit.
2. \_\_\_\_\_ permit.

Operational permit. An operational permit allows the applicant to conduct an operation or a business for which a permit is required by Section 105.6 for either: a prescribed period or until renewed or revoked.

Construction permit. A construction permit allows the applicant to install or modify systems and equipment for which a permit is required by Section 105.7.

**2018 IFC Section 105.1.2 Types of permits.**

An operational permit shall remain in effect until \_\_\_\_\_ , \_\_\_\_\_ or \_\_\_\_\_ , or for such a period of time as specified in the permit.

reissued  
renewed  
revoked

**2018 IFC Section 105.3.1 Expiration.**

The fire code official is authorized to grant, in writing, one or more extensions of the time period of a permit for periods of not more than \_\_\_\_\_ days each.

180

**2018 IFC Section 105.3.2 Extensions.**

An \_\_\_\_\_ permit is required to operate a grain elevator; flour starch mill; feed mill; or a plant pulverizing aluminum, coal, cocoa, magnesium, spices or sugar; or other operations producing combustible dusts as defined in Chapter 2.

operational

**2018 IFC Section 105.6.6 Combustible dust-producing operations.**
